

Vividion Therapeutics

Research Associate/Senior Research Associate, Protein Chemistry

Vividion Therapeutics is seeking a highly-motivated Research Associate to contribute to the identification and development of novel small-molecule drugs. Vividion is a privately held biotechnology company based in San Diego that is leveraging an innovative and proprietary chemical proteomics platform to efficiently discover novel drugs in multiple areas including oncology and immunology.

As an early stage startup company, Vividion is looking for energetic and experienced candidates with a desire to work in a fast-paced and dynamic team environment. The successful candidate will have extensive hands on experience with protein expression, purification and characterization.

Responsibilities include, but are not limited to:

- The design, expression and purification of recombinant proteins to support biochemical and crystallographic analyses
- Establish and optimize growth conditions and develop protein purification protocols
- Perform biochemical assays to evaluate protein function and/or small-molecule protein interactions

Experience and education requirements:

- Bachelor's degree and 1+ years biotech/pharma experience in protein biochemistry
- Protein expression experience in prokaryotic systems. Eukaryotic (e.g. baculovirus) systems would be a plus
- Proven track record of success demonstrated
- Excellent oral and written communication skills
- Be an effective team player and strong individual contributor,
- Be flexible, and able to handle multiple tasks and deliver high quality results under tight timelines

In addition to a competitive compensation package with stock options, Vividion also offers a comprehensive benefits package for our employees and their families, which includes medical, dental, life, disability insurance. For consideration, please submit your resume and cover letter referencing job RAPC2017.04.27 to careers@vividion.com. Vividion Therapeutics, Inc. is an EEO employer.
