

Scientist, Proteomics

Vividion Therapeutics is seeking a highly motivated Scientist to contribute to the identification and development of novel small-molecule drugs. Vividion is a privately held biotechnology company based in San Diego that is leveraging an innovative and proprietary chemical proteomics platform to efficiently discover novel drugs in multiple areas including oncology and immunology.

As an early stage startup company, Vividion is looking for energetic candidates with a desire to work in a fast-paced and dynamic team environment. The successful candidate will have extensive hands-on experience and expertise with mass-spectrometry based proteomics, including quantitation strategies like isotopic labeling, isobaric tagging, and label-free analyses (DIA, PRM/SRM). Strong working knowledge of biochemistry and analytical chemistry is required. Familiarity with small-molecule pharmacology is a plus.

Minimum Experience and Education Requirements:

- PhD or equivalent experience in mass-spectrometry based proteomics, analytical chemistry, chemical biology, or related discipline
- Demonstrated ability to apply and troubleshoot complex proteomic techniques in a biological context
- Excellent oral and written skills
- Be an effective team player and strong individual contributor, flexible, and able to handle multiple tasks and deliver high quality results under tight timelines

In addition to a competitive compensation package with stock options, Vividion also offers a comprehensive benefits package for our employees and their families, which includes medical, dental, life, disability insurance. For consideration, please submit your resume and cover letter referencing job SP2017.07.06 to careers@vividion.com. Vividion Therapeutics, Inc. is an EEO employer.
