

Vividion Therapeutics

Scientist, Medicinal Chemistry

Vividion Therapeutics is seeking a highly-motivated Scientist to contribute to the identification and development of novel small-molecule drugs. Vividion is a privately held biotechnology company based in San Diego that is leveraging an innovative and proprietary chemical proteomics platform to efficiently discover novel drugs in multiple areas including oncology and immunology. As an early stage startup company, Vividion is looking for energetic candidates with a desire to work in a fast-paced and dynamic team environment.

As a member of the chemistry department, the successful candidate will contribute to the growth of Vividion's proprietary screening platform through the practice of standard and cutting edge synthetic organic chemistry.

Minimum education and experience requirements include:

- PhD +/- post doctoral experience in synthetic organic chemistry
- Clear understanding of all relevant reaction mechanisms
- Solid problem-solving and communication skills
- A clear command of the current state of the art utilizing cutting edge synthetic methodology coupled with proven hands-on experience
- Highly productive in the lab along with hands-on experience using modern lab hardware
- Ability to work in a multi-functional team environment

The preferred candidate will be comfortable balancing the use traditional approaches and exploring novelty on the cutting edge of modern small-molecule drug discovery. Attributes such as curiosity, fearlessness, creativity, instinct, focus, attention to details, and a willingness to challenge dogma will differentiate the best candidates.

In addition to a competitive compensation package with stock options, Vividion also offers a comprehensive benefits package for our employees and their families, which includes medical, dental, life, disability insurance. For consideration, please submit your resume and cover letter referencing job SMC2017.10.03 to careers@vividion.com. Vividion Therapeutics, Inc. is an EEO employer.
