

Vividion Therapeutics

Research Associate, Biology (Temporary)

Vividion Therapeutics is seeking a highly-motivated temporary Research Associate to help support the operation of our screening platform for approximately 3 months. Vividion is a privately held biotechnology company based in San Diego that is leveraging an innovative and proprietary chemical proteomics platform to efficiently discover novel drugs in areas such as oncology and immunology.

As an early stage startup company, Vividion is looking for energetic scientists with excellent communication skills and a desire to work in a fast-paced and dynamic team environment. The successful candidate will have a high level of organization and attention to detail, as well as hands-on experience with techniques such as cell culture and small molecule screening. This position will be responsible for maintenance and expansion of cell lines to support screening activities, cell-line inventory management, and use of lab automation to assemble assay-ready compound plates.

Experience and education requirements

- B.S. in Chemistry- or Biology-related field with 1-4+ years of laboratory experience (biotechnology/pharmaceutical industry experience desired)
- Demonstrated proficiency with growth and maintenance of multiple cell lines
- Experience with lab automation is a plus
- Excellent organization and communication skills
- Be an effective team player and strong individual contributor, flexible, and able to handle multiple tasks and deliver high quality results under tight timelines

For consideration, please submit your resume and cover letter referencing job RACB2018.05.25 to careers@vividion.com. Vividion Therapeutics, Inc. is an EEO employer.
